

# Word Aware

The **Word Aware** book is a comprehensive and practical book which provides an ideal platform for the provision of effective vocabulary development in children of all abilities. This rigorously tried-and-tested approach is an outstanding resource, which will be an essential addition to any school and classroom and also an important addition to the materials used by speech and language therapists.

This new publication **Word Aware 2** focuses on developing vocabulary in the early years and is based on the Word Aware book for school age children. Vocabulary development is key in the early years and can be a powerful predictor of reading and academic success. Word Aware 2 is a structured process that accelerates the development of spoken vocabulary. It uses the STAR approach to successfully teach vocabulary in early years settings. This book is full of practical ideas that are easy to apply. Useful to develop every child's vocabulary but of particular value for those who start at a disadvantage – including children with special educational needs and English as an additional language.

The Word Aware Resources are packed full of practical ideas including:

- ✓ Developing a word learning environment
- ✓ Games and activities to reinforce words and promote the enjoyment of vocabulary learning
- ✓ Engaging parents in their children's word learning
- ✓ Using STAR - structured teaching of vocabulary applicable to all areas of the curriculum
- ✓ Steps needed to deliver vocabulary groups
- ✓ Structured approach to teaching abstract concepts
